

Step-by-Step Drawing and Coloring Guide for Among Us Fans: Unmasking the Impostors and the Crewmates

Among Us has taken the world by storm, and its lovable characters—the Crewmates and the Impostors—have become instant favorites. If you're an Among Us fan and you want to learn how to draw these iconic characters, then this guide is for you.

Drawing the Crewmates

1. **Start with a circle.** This will be the head of the Crewmate.
2. **Add a visor.** Draw a curved line across the top of the circle to create the visor.
3. **Draw the body.** Draw a bean-shaped shape below the circle. This is the body of the Crewmate.
4. **Add arms.** Draw two short lines extending from the sides of the body. These are the arms.
5. **Add legs.** Draw two short lines extending from the bottom of the body. These are the legs.
6. **Add details.** Draw a simple mouth and eyes on the face of the Crewmate. You can also add other details, such as a hat or a backpack.

Coloring the Crewmates

- **Crewmates are typically colored in bright, primary colors.** Some popular colors include red, blue, green, yellow, and pink.
- **You can also use darker colors to create shadows and depth.** For example, you could use a darker blue to create a shadow under the visor.
- **Add highlights to your Crewmates to make them look more vibrant.** You can do this by using a white or light-colored pencil to add highlights to the visor, the body, and the details.

Drawing the Impostors

1. **Start with the same basic shape as the Crewmates: a circle.** This will be the head of the Impostor.
2. **Add a visor, but this time make it more angular.** The visor should be shaped like a trapezoid.
3. **Draw the body.** The body of the Impostor is also bean-shaped, but it should be slightly narrower than the Crewmate's body.
4. **Add arms.** The arms of the Impostor are longer and thinner than the Crewmate's arms.
5. **Add legs.** The legs of the Impostor are also longer and thinner than the Crewmate's legs.
6. **Add details.** The Impostor has a few key features that distinguish it from the Crewmates: a mouth with sharp teeth, a pair of horns, and a vent on its back. You can also add other details, such as a knife or a gun.

Coloring the Impostors

- **Impostors are typically colored in dark, muted colors.** Some popular colors include black, gray, brown, and purple.
- **You can also use brighter colors to create highlights.** For example, you could use a bright red to create highlights on the teeth or the horns.
- **Add shadows and depth to your Impostors by using darker colors.** For example, you could use a darker gray to create a shadow under the visor.
